Mid-Kansas Electric Company Holds 6th Annual Meeting

Hays, Kan.—May, 22, 2013—Mid-Kansas Electric Company LLC held its 6th annual meeting in Ulysses, Kan., on May 18, 2013. The board of directors received the annual report of the company, which is available on the Mid-Kansas website, and elected officers for the upcoming year.

Stuart Lowry, Mid-Kansas' president and chief executive officer, discussed the company's current projects and future plans, including regulatory challenges, transmission policy and the transition to the Southwest Power Pool Integrated Marketplace in March 2014.

Following the board meeting, an organizational meeting was conducted by the board of directors to elect leadership for the coming year.

Steve Epperson, a representative of Southern Pioneer Electric Company, was elected chairman of the board of directors. Bruce Mueller, a representative of Wheatland Electric Cooperative Inc., was elected vice chairman.

"In a relatively short period of time, Mid-Kansas has made great strides in bolstering its generation and transmission assets to better serve our members," Lowry said. "These projects would not have been possible without the expertise and visionary approach of the Mid-Kansas board, who base each decision they make on what is in the best interest of the members they serve."

About Mid-Kansas Electric Company, LLC— About Mid-Kansas Electric Company, LLC—
